

KENNY

Vote No. 1 Gino Cllr.

General Election Candidate
Dublin Mid West

People Before Profit / United Left Alliance
Break the Political Establishment
A Radical Voice in the Dáil

Gino KENNY - Your Candidate

Gino Kenny is 39 years old and has lived in Clondalkin since 1979. He moved there from Islandbridge Flats to the new development of Neilstown with his family.

He was student president at the Liberties College for two years and joined the Socialist Workers Party there. He helped organise the Anti Water Charges Campaign in the Clondalkin area with Joe Higgins and later opposed the introduction of bin charges. In June 2009 Gino was elected to South Dublin County Council as a candidate for the People Before Profit Alliance.

Since his election as Councillor, he has campaigned against the erection of mobile phone masts and high density electricity pylons in residential areas.

He has fought against the cuts to community development throughout the constituency.

Recently, he has initiated a major campaign against Dublin Bus's proposals to cut bus services in the Rathcoole, Newcastle and Clondalkin areas. Gino presently works as a Home Care Worker in the Clondalkin/ Lucan area. If Gino gets elected he will only take the average industrial wage.

Fianna Fail, the bastion of government over seventy years, is facing political oblivion.

But a Fine Gael dominated government led by Enda Kenny and propped up by the Labour Party will not deliver real change.

This is why Gino Kenny and People Before Profit have joined the United Left Alliance, which includes Joe Higgins MEP and Cllr Richard Boyd Barrett, to offer a real alternative.

GINO KENNY'S PRIORITIES

James Connolly said "The great only appear great, because we are on our knees. Let us Arise". The people we were meant to look upon as the masters of financial wizardry have failed the people. They were the untouchables. Now we find that we have to pay for the greed of a few.

It is time to call a halt by voting for a candidate from outside the political establishment.

If elected, Gino Kenny's priorities are to:

- Overcome the Liam Lawlor legacy of bad planning by develop-

ing proper community facilities.

- High quality public transport that serves housing estates rather than just the main traffic arteries.
- Extra school places to serve areas of high population density.
- Full access to second chance education for the unemployed.
- Real help for those in difficulty with high mortgages. New legislation to release people from lifelong debt.
- Public works schemes to stop emigration and provide jobs.
- No privatisation of our waste services.

By voting Gino Kenny No 1, you will be putting a Fighting Voice into Dáil Eireann

Break Up The Political Establishment – VOTE FOR THE REAL ALTERNATIVE

The Fianna Fail-Green government and a golden circle of developers and bankers have wrecked our economy.

Yet this government continues to protect the interests of this super-wealthy elite who live a life of luxury while ordinary people pay the cost.

In 2011 the average PAYE employee will pay about €1,392 more a year in taxes and extra levies. Health, Education and Social Welfare services have all been slashed and tens of thousands are being forced to emigrate.

THIS HAS TO STOP

This strategy is not only unjust, it is economic madness. The cutbacks are driving Ireland deeper into recession: When you reduce the living standards of the majority, there is less spending and more people will lose their jobs.

Yet all the mainstream parties are committed to these same policies of cutbacks.

A Fine Gael-Labour 'alternative' government led by Enda Kenny will change very little. They will not reverse the FF cuts. They will continue with the bailouts of the banks and bondholders. They will support an IMF deal that hands control of the economy to unelected, bureaucrats.

THERE IS AN ALTERNATIVE

People Before Profit offers a real alternative to the political establishment. We support a strategy of 'people power' to bring change. As part of a new force in Irish politics, the United Left Alliance, we are standing in constituencies across the country to fight for genuine change.

Gino Kenny will be standing in Dublin Mid West. With your help we can get him into the Dail by Voting him No 1.

If you want to help bring real change to this country then text "Elect Gino Kenny" to 087 2839964 and get involved.

A BETTER IRELAND IS POSSIBLE

We can change current economic policies and build a better Ireland.

Create Jobs: A public works programme can take thousands off the dole. We could employ people to insulate houses, improve our water infrastructure or develop sustainable energy.

Health: Scrap the HSE bureaucracy. End the scandal of a two-tier health service. Create a National Health Service. End the hospital trolley scandal by opening up the 1,660 hospital beds, currently lying vacant.

Education: People need a chance to up-skill. Open up higher education through proper access courses. Scrap student fees. Reduce class sizes in primary and secondary schools and invest in proper infrastructure and support services.

Social Welfare: Reverse the cuts to social welfare and the minimum wage.

Housing: Bailout mortgage holders in negative equity. No repossessions. End waiting lists by opening up vacant NAMA properties.

Pensions: Create an alternative State Retirement Fund insurance scheme to provide defined benefit pensions.

WHO PAYS? - Ireland is still a wealthy country,

- End the bailout of bondholders and banks – Create a viable public banking system.
- Take the assets of NAMA developers into public ownership. Use NAMA properties to house those in need of accommodation and cut the annual €500 million rental income bill.
- Impose a 5% wealth levy on the super-wealthy who still have an estimated €122 billion in wealth and assets.
- Increase taxes on the top 37,000 people who are paid an average of €300,000 a year.
- End tax loopholes for the very wealthy which costs up to €8 billion in lost revenue.
- Take the Corrib Gas Field and our natural resources back into public ownership.
- Introduce a salary cap of €100,000 for top civil servants, semi-state executives and judges. Abolish all junkets. Slash politicians pay, expenses and ministerial pensions.
- No sell-off of state assets. Instead use them to stimulate the economy. For every €1 billion invested by the state 10,000 jobs are created and €60 million is saved on unemployment benefit.

Gino KENNY's Pledge:

"TD's and ministers are paid far too much...
If elected as a TD I will only take the average industrial wage, the remainder will be donated to campaigns and organisations that put people and communities first".
