# THERE IS AN ALTERNATIVE! - Put People Before Profit

People Before Profit – United Left Alliance is an alliance of people fighting for a better society. FF/Green policies have bankrupted the country. The main opposition, FG/Labour, will continue cutbacks to services. They will pay off bondholders rather than launching a public works programme to create jobs.

We say:

- End the bail-out of bondholders and banks – No to the IMF/EU austerity package.

- Create a public banking system : –  
Stop paying off the gambling debts of speculators.

- Increase taxes on the highest earners – 37,000

people have a combined income of 11 billion. Reverse recent taxes and the Universal Social Charge on PAYE workers.

- End the tax loopholes and impose a 5% tax on the super-wealthy – who have an estimated wealth of 122 billion.

- Take the Corrib Gas fields back into public ownership to help fund our economy.

- Slash salaries of all politicians, top civil servants, semi-state executives and judges. Abolish all junkets and perks.

- Reverse the cut to the minimum wage.

We need new voices, new ideas and a real alternative in the Dáil. Gino Kenny and People Before Profit is part of the United Left Alliance that is fielding candidates across the country. If you support our campaign, text: "Get Gino into the Dáil" to 087 2839964.
