

Eamon Ryan TD

Working for a
Sustainable
Recovery
in Dublin South

green
party

dublin south

Dear Constituent,

We are in exceptionally difficult economic times but by taking the right decisions now we can stabilise our economy and put the country back on the path to recovery.

We have the skills, ingenuity and resources to get people back to work and return Ireland to prosperity. We can build a smarter, greener more sustainable economy and I am committed to making that happen.

Overleaf you can read about some of the achievements I have made in Government and you can find further details on my website www.eamonryan.ie

I was very pleased to open my constituency office last year and if there are any local or national issues that you would like to discuss then please do drop in to **4 Pembroke**

Cottages, opposite the church on **Dundrum Main Street**, or call on **2995513** or email eamon.ryan@oireachtas.ie

I look forward to hearing from you.

Best wishes,

A handwritten signature of Eamon Ryan in black ink.

Eamon Ryan TD

Some of the achievements The Green Party have made in Government:

Providing Clean Green Energy

- Wind energy has doubled in the last three years and at times we are generating almost half of our energy from renewable sources.
- We have retrofitted almost 100k houses making peoples homes more comfortable and cheaper to heat.

Delivering Better Communications

- Broadband subscriptions have almost tripled and speeds have doubled under my watch. A recent Oxford University study places Ireland 13th in the world for leadership in broadband services.

Protecting our Children's Education

- Even in difficult economic times we have fought to protect key spending in primary and secondary education, and we have supported access to third level education for everybody.

Ending Bad Planning

- We have completely reformed our planning legislation to make sure that the mistakes which added to the property bubble and crash will never be repeated.

Making Sustainable Transport a Reality

- We are creating a cycling culture in our city by introducing the Cycle to Work and Dublin Bikes schemes.
- We are improving Dublin Bus services, extending the Luas and building new rail lines.

Advancing Progressive Legislation

- We delivered the Civil Partnerships Act which allows protection and rights for same sex couples for the first time.
- We are working on legislation to protect animal welfare, to tackle climate change and to clean up politics.

Creating Jobs in the Green Economy

- In my own areas of responsibility we are creating new jobs. Last year when the rest of the economy contracted there was a 6% increase in jobs in the digital economy, which now employs 75,000 people, and a further 16,000 jobs were created in clean energy over the last three years.

For further information on these and the many other achievements we have made, please long on to my website
