The upcoming election is the most important in a generation. We all know what went wrong. This election must be about reform and change.

Brian

FINE GAEL Plans

- Re-negotiate IMF/EU deal – A new Government must get a better deal and get back into the International money market as soon as possible.
- A New Politics – Abolish the Senate, reduce the number of TDs and reform the Dail.
- A Stimulus Plan – “new Era”, create jobs investing in 21st century infrastructure like broadband technology and renewable energy.
- Reform the Public services - Reinventing Government, make government smaller, cheaper and better.
- Fix The Health Service - “Fare Care” includes universal health insurance and cut HSE waste

Dear Voter,

Its time for change and reform in the way we run our Country. I believe politics is broken and we need new people in Government to ensure that this time we get real reform and change.

I am 41 years old and have lived in Kingswood Heights with my family for the last 15 years. I want the best for Dublin South West, but I know that tackling the current jobs crisis is central to our recovery. Fine Gael has been in office for just 2 of the past 20 years – we badly need change.

I believe that politics must be about putting people first, not banks, not your political friends and definitely not politicians.

I think that people want a total break from the past. That means more honest politics and politicians that confront problems and can tell the public the truth. We need long term thinking and planning, not the failure of soft option politics.

I will use my experience to support policies which are designed to get people back to work and create jobs. All the efforts of the next Government must focus on jobs, over 10,000 people here in Dublin South West can't find work. They must be our priority.

Thanks

Brian Hayes
