

General Note:- The entire roof and all facades were brushed down with a nylon-bristle brush to remove all scums, algae, dust and lightly adhered dirt and stains. Water (from a hose at mains pressure) was used locally to wash more stubborn stains and dirt. Weeds and other organic material were removed and the mortar joints and stubborn tendrils treated with biocide.

1. USE FIGURED DIMENSIONS ONLY - DO NOT SCALE  
2. ALL DRAWINGS TO BE READ IN CONJUNCTION WITH THE SPECIFICATIONS
